VII. NEW BUSINESS
   A. 239 Reviews
1. **County Case 2014-006: Village of Owego, Special Use Permit and Site Plan Review, Johnson’s Pools & Spas, LLC**

G. Eckley recused herself and exited the room.

The applicant is requesting a special use permit and site plan review approval for the construction of a 10’x10’ concrete block building to house a water connection to utilize as a filling station for water trucks for the applicants business- Johnson Pools and Spas. First an area variance needs to be granted as this proposed commercial/industrial-type use is not allowed in the Village of Owego’s R3 zoning district.

Applicant states that currently water is accessed through the Town of Owego during normal operating hours of their utility department. This limited access restricts applicant’s ability to operate his business as water is only accessible Monday through Friday 7:30AM-3PM. The proposal states that water would be purchased from United Water in the Village of Owego. The site has access to a 6” main. Water withdrawals would fall under United Water’s SRBC permit (confirmed by staff).

Hours of operation will be primarily Monday – Saturday 7AM-7PM with maximum projected capacity of 6 loads per day (currently hours of operation limit Johnson Pools and Spas to a maximum of 3 loads per day).

In order to make the intended use work logistically, the applicant must obtain a lease from the Village of Owego to access their FEMA flood buy-out property, so the trucks can enter from Mill Street and exit to Water Street. The applicant is pursuing such lease agreement with the Village of Owego.

The neighborhood contains a mix of uses, but mainly vacant land, and neighboring lots are zoned Industrial.

Staff recommends approval of the special use permit and site plan review with the following conditions:

- That the Village of Owego ZBA must have overridden the TCPB recommendation for disapproval with a supermajority vote and granted the applicant the use variance; and
- That the water filling station structure is constructed in compliance with the Village of Owego’s Flood Damage Prevention Local Law; and
- The Village of Owego obtains FEMA approval to have this intended use conducted on their buy-out property.

E. Jardine reported that the Village of Owego ZBA did override the Tioga County Planning Board disapproval recommendation with a supermajority and therefore granted the applicant the use variance at their meeting last night.

**Q: T. Pollard.** – Did the County Attorney give the OK for the Tioga County Planning Board to go ahead and act on the Special Use Permit and Site Plan Review for this case?  

**A. E. Jardine** – We’ve had much correspondence on this case between last month and this month, and never once did Judy say it could not move forward. Additionally, since this Board made the motion last month to vote only on the Use Variance and not consider the Special Use Permit or Site Plan Review, this is a moot point.
Motion to recommend approval of the special use permit and site plan review with the conditions noted:
