Starting a Business?

The Tioga County Industrial Development Agency (TCIDA) loan program is a revolving loan fund, which was created to provide low interest loans to start-up and expanding businesses located in Tioga County. The loans must involve direct job retention / creation, which will strengthen the economic base of Tioga County.

The revolving loan program works by replenishing funds available for lending with the payments made by the borrowers. As the borrowers make payments on their loans the IDA uses the incoming funds to create other loans. Making the TCIDA s loan program a truly revolving loan fund for businesses.

TCIDA s loan program is not meant to be used as a substitute for conventional lending sources. Rather, they are designed to fill possible financing gaps that may exist and to provide or attract financing which would not otherwise be available for economic development projects.

TCIDA's loan program is administered in accordance with the plan that it had developed and approved by its funding agencies, primarily the United States Department of Agriculture, Rural Development Agency.
