GRANTS:

Mike stated the grants are the same as last month’s committee meeting (see attached report).

HIGHLIGHTS:
• Attended meetings – County Search and Rescue; County Hazardous Materials Team; and COAD are the meeting Bob Williams attended. County Fire Chief’s meeting Mike Simmons and Bob Williams attended.
• LEPC – tabletop exercise conducted by Emily Warble. Exercise was a Hazardous Materials Release. Reviews were good.
• Waverly Radio Project – met with Motorola State and Regional Representatives. Fingerlakes has received radio licenses for the site in Roundtop Park in Athens.
• HazMat Team – Responded to two calls – tractor-trailer on the Southside of Owego went into the ditch and punctured the tank and spilling diesel fuel and a vehicle struck a gas pump. Both scenes were turned over to DEC Spill Response.
• Fire Investigation Team – 4 calls last month. Search and Rescue – no call this month.
• EMS – Basic EMT class and EMT refresher class have started. Clinical Instructor Coordinators John Sweger and John Stephens are lead instructors for these classes. ShellyAnna Decker (F/T 911 Dispatcher) wants to teach EMT classes. He was informed from Personnel that the job description for EMT Instructors is very close to her 911 full-time county position. Mike stated a lot of time has been spent on this. Co. Legislator Bill Standinger stated that he, Co. Legislator Dale Weston, and Co. Legislator Ed Hollenbeck will talk about this at the Personnel Committee meeting that is scheduled for tomorrow (October 10th).
• FIRE – Fire-training classes are being scheduled into 2019. The past two classes have been cancelled because the minimum number of students (10) was not met – we only had 8. One of the classes was a basic for New firefighters. Eight attended and because they were short two, the result was that no new firefighters were trained.
• Interoperable Fire Radio System – No word back regarding grant application.
• EMO Responses – two more flash flooding events. The following towns experienced significant flood damage: Town of Candor; Spencer; Newark Valley, and the Village of Newark Valley. Issued a State of Emergency during one of those two storms because there was not enough signs for road closures. Q. Co. Legislator Weston: Will they be getting more road-closed signs made up? A. Mike Simmons: I will get with Gary Hammond and Rich Perkins from the County Highway to discuss this. The state sent two swift water rescue teams but the local fire department water rescue teams assisted people evacuating their homes. Presidential disaster declaration was declared for the two storms (August 13th and 15th) but not the most severely damaged flooding on August 18th.
• FIRE Responses - none
• Discussed sharing an employee with Public Health. Need to decide how salary will be shared between the two departments.

PROBATION – Joy Bennett:

Joy Bennett, presented the following information to the committee. Report is attached.

RESOLUTION:

• Approve a Contract between the Tioga County Probation Department and Buddi US. LLC

October 9, 2018

d. Fire Investigation Team – Responded to 4 Calls last month
e. Search and Rescue – No Calls this month.

4. EMS – Basic EMT Class and EMT Refresher Class have both started. Clinical Instructor Coordinators (CIC’s) John Sweger and John Stephens are lead instructors for the classes. ShellyAnnna Decker, (911 Dispatcher) has a desire to teach EMT Classes but we have experienced difficulties allowing her to do so because she is a full time County employee.

EMS Inadequacies – It has been recognized that the effectiveness of other provision of emergency medical care has been declining over the past few years. While the residents of some areas have been fortunate enough to continue to receive adequate care, others are not. This is leading to lengthy delays in obtaining EMS assistance when people require aid. While some agencies have found that they can afford to hire paid staff, most cannot at a local level. This is not isolated to our area. One option that could potentially save rural emergency medical services is for the county to examine the feasibility of a countywide ambulance district. There is currently legislation that has been introduced that will permit counties to form such districts. Such districts would have the ability to collect property tax and also bill patients who utilize services. They are many ways to determine service areas and utilize existing stable EMS providers while ensuring coverage to those areas that do not. I recommend that we explore this possibility since many indicators show that the provision of EMS by agencies in small rural communities with limited call volumes will continue to be more and more difficult and eventually lead to failures. Being that the county can approach the EMS problem at a more “regional” level we may be the obvious agency to effect changes.

5. Fire – Fire Training Classes are being scheduled into 2019. The past two classes have been cancelled because the minimum number of students (10) was not met. An attempt to convince State Fire to allow us to have a lower minimum number of students (8) was not successful. One of the classes that was cancelled was a basic class for new firefighters. 8 attended and because we were 2 short the result was that no new firefighters were trained. Our position is that departments would have benefitted by having 8 new trained firefighters even though the class was 2 short. Additionally, the class costs the state the same amount if there are 8 or 10.

6. Interoperable Fire Radio System – No word back regarding grant application. Motorola Solutions is no longer searching for frequencies. They wanted $40,000 that had not been previously discussed to conduct the search. The search will be conducted by Federal Engineering as part of their contract. There engineering department has generated coverage maps that are based on our current tower locations and show that coverage for mobile radios is over 95% reliable but portables and paging still needs additional tower sites for adequate coverage.

7. Radio Engineering Consultant - Working with Federal Engineering to collect information about our current radio system and future needs. Needs assessment completed. Consultant is conducting searches for available UHF frequencies which have proven to be difficult. We are hopeful that we can repurpose some frequencies that we already have and obtain others from local fire departments who have obtained their own during previous years. The next meeting will be to discuss radio coverage studies to determine how we will obtain optimal coverage.

8. EMO Responses – Two more flash flooding events. Towns of Candor, Spencer, Newark Valley, and the Village of Newark Valley experienced significant flood damage as well as County Highway. A State of Emergency was declared and Emergency Orders closing County owned roads was issued for one of the storms. The EOC was opened. The State sent in two swift water rescue teams. Local fire department water rescue teams assisted people evacuate their homes. The only storms and damage that were assessed were the ones that occurred on August 13th thru 15th. A presidential disaster declaration was declared for those storms. Tioga County met the threshold for Public Assistance but not for Individual Assistance.

9. Fire Responses – None

10. Discussed sharing and employee with Public Health. We need to decide how salary will be shared between departments.

Public Safety Committee Meeting
Probation Department Report
October 9, 2018

Article I. Budget Status:
2018 Budget on track
No information on status of 2019 budget request

Issues:
1. Submitted RTA Comprehensive Plan to DCJS/OCFS/Division of Budget in September 2018. Received an email from DCJS directing that figures be moved from one area of the spreadsheet to another. Received a telephone call from OCFS directing Tioga to add dollars figures for non-secure detention costs to the document and to amend a dollar figure for law enforcement transports. Document was resubmitted last week. To date, it appears that no plans submitted to the state have been approved. Approximately 50% of the counties have submitted a plan.

2. Completed all Law Enforcement and Social Services training for Raise the Age. Probation Director will review RTA for a second meeting with Tioga County Magistrates on 10/17/18. There is still confusion about where a 16 year old youth convicted of a VTL Misdemeanor will go if sentenced to “incarceration”, with some of the Justices.

3. Sent proposal to Public Defenders to suggest a meeting regarding Youth Part Court and new mandate of Voluntary assessment and case planning services for Adolescent Offenders to explain what it is, so attorneys can describe it to their clients. This offer was declined.

4. Probation continues to work with both COTI programs.

5. Working with COTI Peer Support to run a second session of Thinking for a Change (T4C), a 14 week evidence based program at the Probation Department in the fall for adults.

6. Met with TCSO IID Monitor, STOP DWI Director and Lt. Nalepa regarding creating a Magistrates Guide to Ignition Interlock devices for Tioga County. STOP DWI will pay to create the bound booklet to be distributed to the Justices. Tioga expects three new Justices to take office in 2019, with a fourth to take office in 2020. This is good time to review the law changes put into effect in 2017.

ATI Programs:
- **Electronic Monitoring** – 2 units in use (1 adult and 1 juvenile)
- **Community Service** – Crew scheduled both days. Filed a number of violation petitions with sentencing courts for non-attendance. Biggest problem area for missed session are defendants sentenced to a Conditional Discharge.
- **Pre-Trial Release** – Currently have 25 defendants released from Tioga Co. Jail by a Justice Court or the County Court:
  - 8 are released RUS meaning they report in person weekly to the Department and follow court orders for urine testing, alcohol/drug evaluations, etc.
7. **Juvenile Delinquency Services**: 1 Juvenile Delinquency Appearance Ticket was issued by the new School Resource Officer in Owego Apalachin Schools for Criminal Sale of a Controlled Substance, 3rd Degree, a Class B Felony. A second ticket was issued to the youth who purchased the drugs for Criminal Possession of a Controlled Substance, 7th Degree. A third ticket was issued to a 9 year old youth charged with Assault as a Misdemeanor.

YTD: 19 JDAT received during 2018

8. **Alternative to Detention Programming**: Probation had 0 youth in detention during the month.

9. **Court Ordered Investigations**: 72 investigations for Tioga County courts (Criminal, Family and Surrogate) are due in the next 60 days.

10. **Supervision**: 319 cases ordered by Tioga County courts & Family Court

11. **Violation of Probation petitions**: 36 defendants have violation petitions pending against them in criminal & family courts

**Article II.**

**Article III.** Personnel:
- Unfunded PO position
- P/T Office Specialist 1 resigned effective 10/5/18. Found a full time job in Broome County. Backfill request submitted. 2019 budget request is that this position be enlarged to full time.

**Resolutions:**
- Resolution for continuation of contract with Buddi US, LLC for electronic monitoring services.
