Not on the agenda, Ms. Tinney wanted to thank everyone for their support in passing last month’s resolutions for the staffing changes to the ED&P Department. In addition to those changes, Ms. Tinney asked about the possibility of the Economic Development budget and the Planning budget becoming one budget. Ms. Hollenbeck explained that the Economic Development budget and the Planning budget do not fall under the same statewide comptroller’s budgetary classification. Economic Development, a non-mandated service, is home and community services beginning with a 6, and planning, a mandated service, is culture recreation beginning with an 8. Ms. Hollenbeck suggested that this committee could grant the authority for crossover transfers (ex: planning to economic development) without resolution and pointed out that they could be combined on the Munis Financial Software System as far as reporting and next year’s budget entry as long as the budgetary classifications remain the same, 6 and 8.

Ms. Tinney and Ms. Hollenbeck will meet and come back to this committee for discussion.
Legislator Weston asked for a motion to go into Executive Session. Legislator Mullen made the motion to go into Executive Session, seconded by Legislator Hollenbeck.

**ADJOURNMENT** – With no further topics of discussion or questions, the meeting was adjourned at 2:10 P.M.
