Spotlight on Government Services

The Office of Emergency Services coordinates the County's efforts to prepare for and respond to emergency situations. In an emergency situation, the Office of Emergency Services works with County departments and external agencies to respond to the needs of citizens by helping to protect lives and property, assist those injured or whose normal lives have been disrupted by events, and to provide for the rapid restoration of normal services.

Additionally the Office of Emergency Services provides and/or supports the following programs to assist the fifteen (15) volunteer fire departments and fifteen (15) emergency squad/first responder units in Tioga County, including EMS & Fire Training, Central County Radio Communications, Fire Investigation Services, Search and Rescue Assistance, Critical Stress Debriefing, and Mutual Aid Coordination with adjacent counties.

The Office of Emergency Services is also currently overseeing a \$18 million-dollar Interoperable Radio Communications Tower Upgrade Project. This project includes the upgrading of existing radio towers, and the construction of 4 new radio towers, and the upgrading of radio facilities and equipment. This will enhance radio connectivity across the County and ensure that emergency services continue to be provided safely and efficiently to all residents. The expected completion date for this project is mid to late 2026.
